

# CLEANING

VERSUS

# SANITIZING

WHAT'S THE DIFFERENCE?

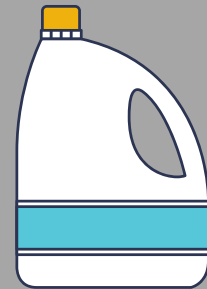

## CLEANING

Removes dirt, germs,  
and impurities from  
surfaces

Does not kill germs  
or viruses

Lowers infection risk  
by physically  
removing germs

## SANITIZING

Uses chemicals to kill  
germs and viruses on  
surfaces

Does not clean  
surfaces or remove  
germs

Lowers infection risk  
by killing germs and  
viruses
